ITINERARY:

Day 1: Approx 15 km, intermediate level

Transport with the World Heritage Bus or your hosts to the fishing village of Bönhamn with its quaint fishing chapel, boatsheds, summer flea market and café. Hike to Lake Älgsjö and climb to the top of Älgsjöberget to get a fantastic view of the archipelago including the islands of Hägbonden and Ulvön. Your hike continues along the Edsätterfjärden inlet passing several swimming beaches and then up to the top of Själandsklinten (which can be seen from Pelle Åbergsgården). Enjoy the views of the sea, forest and lakes. Once you have walked down the mountain, you will find a delicious dinner waiting for you at the popular restaurant Gårdsbutiken. After dinner you have just a short walk back to Pelle Åbergsgården.

Day 2: Alt 1, approx.15 km, intermediate level

Hike directly from Pelle Åbergsgården over the mountain to the outdoor museum Mannaminne and enjoy the impressive collection created by artist Anders Åberg who was Pelle Åberg's son. You can see Pelle Åbergsgården in miniature form at the agricultural museum. There is another mountain for you to climb today – Stortorget – you might recognise the view from TV4. From here you can continue around Ringkallen where you can admire the unique geology of the area and Sörleviken, which is currently a narrow inlet but due to the constant land uplift in the area it will soon be a lake.

Day 2: Alt 2, approx.15 km, easy level

Start the day with your hosts driving you to the quaint fishing village of Barsta. Take the time to visit the fishing chapel from the 1600s before hiking the easy trail to Rotsidan Nature Reserve that passes by beaches and goes through forests. You can enjoy your picnic lunch here and take a swim in the sea. There are picnic areas along the beach and you can clearly see evidence of land uplift everywhere you look. Your hike continues to Fällvikshamn and then back to Fällsvik where there is a tiny museum to visit and a popular summer flea market. A soft sandy road through the Sörleskogen forest lies ahead with pretty picnic spots along the way and beautiful views over Sörleviken. The last part of your hike is along the road back to the village of Björnås that has amazing views of Ringkallen and cobble fields high up above the narrow Sörleviken inlet and the pretty Ångermanland landscape with cows and horses grazing in green meadows.

The total distance hiked in the two days is about 30 km.

ITINERARY:

Day 1 WORLD HERITAGE TRAIL Approx. 13 km, intermediate level

Catch a ride with the World Heritage Bus or your hosts to the fishing village of Bönhamn with its fishing chapel, boatsheds, summer flea market and café. From here, hike to Lake Älgsjö and climb to the top of Älgsjöberget to get a fantastic view of the archipelago including the islands of Hägbonden and Ulvön. Your hike continues along the Edsätterfjärden inlet past several swimming beaches and then up to the top of Sjalandsklinten (which can be seen from Pelle Åbergsgården). Enjoy the view over the sea, forest and lakes. Once you have walked down the mountain, you will find dinner waiting for you at the popular restaurant Gårdsbutiken. After dinner you have just a short walk back to Pelle Åbergsgården.

Day 2 WORLD HERITAGE TRAIL Approx 13 km Easy level

Start the day with your hosts driving you to the quaint fishing village of Barsta. Take the time to visit the fishing chapel from the 1600s before starting on the easy hike to Rotsidan Nature Reserve that passes by beaches and goes through forests. You can enjoy your picnic lunch here and take a swim in the sea. There are picnic areas along the beach and you can clearly see evidence of land uplift everywhere you look. Your hike continues to Fällvikshamn and then back to Fällsvik where there is a tiny museum to visit and a popular flea market in the summer. On your way back to the village of Björnås, you'll pass a beautiful view of Ringkallen and the cobble field high up above the narrow inlet Sörleviken. The scene is typical for rural Ångermanland with its working farms and picturesque scenery.

DAY 3, Alt 1: SKULESKOGEN NATIONAL PARK and SLÅTTSDALSKREVAN CANYON from the South Entrance

If you decide on this alternative, you will need to drive yourself to the South Entrance of the Skuleskogen National Park. If you choose the second alternative we will drive you to the start of your hike in Omne.

Slåttdalsskrevan Canyon is an impressive place to visit and your hike there will take you along a section of the High Coast Trail starting at the South Entrance of the national park. After about four kilometres you will reach the canyon

that divides the mountain Slåttberget in two. It is almost 200 metres long, seven metres wide and 40 metres deep. You can choose to continue to Tärnättvattnen and have a picnic lunch by the sea and a swim. From here, you can head back along the sea and then through the coastal forest by the water. If you want to go for a longer hike, you can take the loop through Näskebodarna and then back to your car. The hike is about 10 km long.

On the way back to Nordingrå you can visit the town of Docksta, home to famous shoe manufacturers Docksta Sko and also Mjälloms flatbread bakery. These are two popular attractions in the area.

If you decide against hiking in Skuleskogen National Park, you have two beautiful hikes to choose between along the World Heritage Trail: Omneberget Nature Reserve and Ringkallen with its unique geological rock formations.

DAY 3, Alt 2: OMNEBERGET NATURE RESERVE Two sections, approx. 13 km total

Start with a transfer to Omneberget, a south-facing mountain that has rare flora and rich birdlife. Its steep slopes trap the heat resulting in an unusually warm climate for these parts that makes it possible for many plants that don't usually grow this far north to thrive here. The unique environment is now a nature reserve and up above the wind shelter there is a beautiful sweeping view of both the sea and the surrounding mountains and forests. From here, the trail goes down to Lake Ömnesjön, which is one of the area's best swimming lakes. Take a dip if you want and then continue along the sea and boat harbour in Omne and then over the mountain and through the forest to the village of Orsta. In the summer, you will find a popular gallery open here with a different artist exhibiting each week. The gallery is right next to Lake Själandssjön so you have the chance of another swim before hiking the last bit of the trail back to Pelle Åbergsgården past the village of Själand, restaurant and cafe Gårdsbutiken and on along Björnåsleden back to the farmhouse.

4-DAY HIKING PACKAGE WITH FULL BOARD AND HIGH COAST HIGHLIGHTS

Experience the area by climbing up to the top of Skuleberget, checking out the visitor centre Naturum with its informative exhibitions on the dramatic land uplift in the region, and visiting local food and handcraft producers. Spend your second day hiking to the famous canyon Slåttdalsskrevan in Skuleskogen National Park and day three and four in Nordingrå hiking the World Heritage Trail to see highlights such as the fishing village of Bönhamn, the top of mountains Älgsjöberget and Själandsklinten, the Barsta Chapel from the 1600s and Rotsidan Nature Reserve.
